
1.6 mm 5-axis Spring Coiling Machine

<http://www.whitelegg.com/product-search/1-6-mm-5-axis-spring-coiling-machine>

A 5-axis computer-controller machine suitable for the production of springs, including compression, tension (without loops) and rings. Exceptionally user-friendly programming, with memory storage for up to 150 springs. Automatic spring program generating feature to reduce set-up time. Servo motor control for the wire feed, diameter control, cutting and pitch slide and the horizontal pitch slide.

Wire range:	0.5 – 1.6mm
Max. OD:	40mm
Feed length:	Unlimited
Production speed:	500 springs per minute maximum
Voltage:	400 volts 50hz 3 phase 20 A
Dimensions:	135 x 125 x 164cm (unpacked) 200 x 130 x 175cm (packed)
Weight:	690kg (unpacked) 740kg (packed)

- Vertical and rotating cut-off for left and right-hand springs
- With automatic length correction and sorting
- Touch or laser probes to control length (do not adjust length)
