
Guillotines for Cutting Insulation Materials

<http://www.whitelegg.com/product-search/guillotines-for-cutting-insulation-materials>

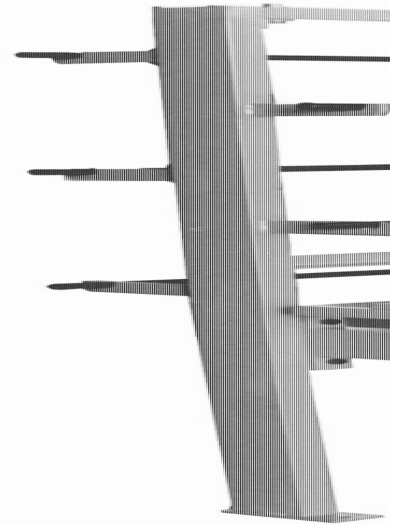

Large range All proven for cutting insulation materials for motor repair workshops. Heavy duty models available for larger applications

All models have material clamp.

Bench models have a hand operated or automatic clamp which operates as the blade is depressed. Floor standing models have a foot operated clamp.

All models have an adjustable end stop on the table so that narrow strips can easily be cut.

We have a guillotine to suit your application.
