
Large Curing Ovens

<http://www.whitelegg.com/product-search/large-curing-ovens>

MW and SM ovens are large electric ovens designed for assembly on site. They are supplied in kit form, with full instructions, and can be assembled by your local workforce or by Whitelegg engineers. This saves a great deal of cost in the packing and transport of large ovens that do not fit into standard containers.

- All ovens comply with latest EC safety regulations
- Explosion relief panel fitted as standard
- Air circulation fans ensure even heating
- Supplied with process timer
- Fume extraction with airflow proving switch
- Temperature range is ambient to 300 degrees Celsius
- Gas or electric versions available
- Loading trolleys up to 20,000 kg capacity available
- Electric tug for movement of trolley also available
-
- Special sizes available on request

Model	Internal Dimensions (H x W x D) cm
