# UCM-02 Bench mounted commutator undercutting machine

---

<http://www.whitelegg.com/product-search/ucm-02-bench-mounted-commutator-undercutting-machine>

---

**Smallest model in range. For bench mounting. For holding the rotor either between centers or V-blocks. Very accurate positioning and high cut quality.**

Rotor length between bearings	500 mm max
Maximum commutator diameter	0-160 mm
Maximum commutator milling length	180mm
Milling cutter diameter	10mm
Milling cutter bore	3mm
Cutter speed	3000rpm
Milling motor	0.12kW 230V 1 Ph
Machine base area	800 x 400 mm

---

Machine weight

55kg
