

GR1/2 Heavy Duty Hand Held Growler

<http://www.whitelegg.com/products/electric-motor/electric-motor-rewind-and-repair/gr1-2-heavy-duty-hand-held-growler>

Hand held device for testing shorts in stators and armatures

For armatures 150-300 mm diameter

For stators 60-300 mm.

Easy to handle and highly sensitive using the "feeler" method. The feeler vibrates if there is a short - a simple and positive test.

Model GR1 for a 110v single phase power supply

Model GR2 for a 230v single phase power supply
