

WTW T welder

<http://www.whitelegg.com/products/wire-forming/wire-forming-welding/wtw-t-welder>

For the T welding of two wires for a fast and smooth weld finish

Compact and easy to use

Ready for bench mounting

15 kva power at 50% duty cycle

Wire range 2-4 mm - larger versions available for bigger wire diameters.

Top electrode clamps and horizontal one pushes

Pneumatic operation

Linear movement of top clamping electrode ensures reliability and consistency of weld

Fitted with programmable weld timer with memory for different weld settings.

Dimensions: 86 x 25 x 68 (h) cm and 75 kg

Pulse weld control

Foot pedal actuation

Water cooling required

Larger model available for wire up to 8.0mm wire diameter
