
BVB Hand Operated Coil Winding Machines

<http://www.whitelegg.com/product-search/hand-operated-coil-winding-machines>

The Hand Winders are robust and simple and ideal for occasional winding operations or for training colleagues

- Robust and simple, these hand winders are ideal for occasional winding operations, low volume production or for training colleges.
- They are fitted with a 5-figure revolution counter and spindle lock.
- They can be supplied as a simple winding machine with or without a faceplate and chuck.
- THE BVB-01 can be supplied mounted on a base plate as shown to the left, complete with wire tensioning device and de-reeler.
- A wide range of plastic wining arbors are available.
- These are ideal tools for winding electric motor coils.
- These units are available in either left or right hand operation.
